

UTKRISTA BHANDARY

BSc IT Student | AI-Assisted Development | Data & Technology | UI/UX & Design Thinking

Thimi, Bhaktapur, Nepal • +977-9860905119 • utkristabhandary@gmail.com

PROFESSIONAL SUMMARY

Motivated BSc IT student with hands-on exposure to AI-assisted development, data analysis, web development, UI/UX, graphic design, and automation. I use AI tools for research, coding assistance, debugging, architecture exploration, rapid prototyping, documentation, and workflow automation. Practical exposure includes Python, Django, Flask, Pandas, NumPy, Power BI, databases, Figma, HTML/CSS, and Git/GitHub. Strong in problem solving and design thinking, with leadership and event-planning experience. Seeking an internship or entry-level opportunity in IT, software, data, AI, automation, or technology-focused roles.

CORE SKILLS

Programming & Development: Python, Django, Flask, HTML, CSS, REST APIs (Basic), Git, GitHub

Data & Analytics: Pandas, NumPy, Seaborn, Data Analysis, Exploratory Data Analysis, Data Visualization, Power BI

AI & Automation: AI-Assisted Development, Prompt Engineering, AI Research, Rapid Prototyping, Automation Workflows

Databases & Design: PostgreSQL, Relational Databases, Figma, UI/UX Design, Wireframing, Canva, Graphic Design

Professional: Problem Solving, Design Thinking, Team Collaboration, Leadership, Public Speaking, Event Planning

EDUCATION

Bachelor of Science in Information Technology (BSc IT)

Techspire College, Asia Pacific University (APU) | 2026–2029 Expected | First Year

Relevant Coursework: Programming, Database Systems, Web Technologies, Data Structures

PROJECTS & COMPETITIONS

Attendance Management System | Full-Stack Academic Management Project | 2026–Present

- Developing a role-based academic platform for administrators, teachers, and students using Django, APIs, PostgreSQL, authentication, scheduling, attendance, reporting, and academic data management.
- Implementing semester, section, subject, teacher, timetable, holiday, attendance, and reporting workflows based on real academic business rules.
- Using AI-assisted development for architecture exploration, implementation, debugging, research, documentation, and rapid feature prototyping.

Candidate Screening Platform | Relay Hack x Acquire | Hackathon Project

- Collaborated on a candidate screening platform designed to streamline candidate evaluation and recruitment workflows.
- Applied rapid prototyping, problem solving, teamwork, AI-assisted development, and user-focused solution design under time constraints.

Data Analysis Project | Python

- Performed exploratory data analysis using Pandas and NumPy, created visualizations with Seaborn, and communicated patterns and findings through data-driven summaries.

LEADERSHIP & EXPERIENCE

Acting Vice President | Techspire IT Club | 2026–Present

- Support planning and execution of technology events, workshops, and club initiatives; coordinate with members across technical, creative, and organizational activities.

Art, Design & Tech Team | Techspire IT Club | 2026–Present

- Contribute to visual design, promotional materials, event content, and technology-focused creative initiatives.

Graphics Designer & Event Planning | Hult Prize, Techspire College | 2026

- Designed promotional assets and social media content while supporting event planning, logistics, coordination, and execution with the organizing committee.

CERTIFICATIONS & TRAINING

Data Science Certification • Power BI Certification • Design Thinking Certification • Prompt Engineering

Certificate/Workshop • UI/UX Design Training — Techspire College • Web Development Training — Techspire College

LANGUAGES & ADDITIONAL INFORMATION

Languages: English (Professional Working Proficiency) • Nepali (Native / Full Professional Proficiency) **Interests:** AI & Automation • Data & Analytics • Software Development • UI/UX • Technology Innovation
